

# Participate in a New Gateway Study

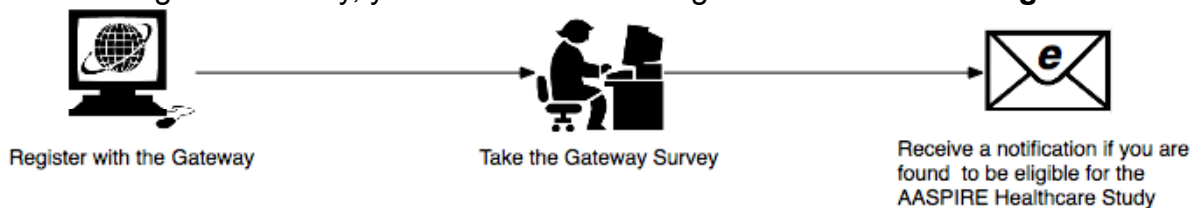

The Academic Autistic Spectrum Partnership in Research and Education (AASPIRE) and the Gernsbacher Lab have created the Gateway Project. The project serves as a gateway for research that is committed to inclusion, respect, accessibility, and community relevance.

Gateway studies address topics such as well-being and problem-solving. A new AASPIRE Gateway study focuses on the healthcare experiences of adults on the autistic spectrum and adults with and without disabilities. AASPIRE expects to use the information learned from this study to improve healthcare.

## To participate in the AASPIRE Healthcare Study and any of the Gateway studies:

1. Register for a Gateway account at the Gateway homepage <http://thegatewayproject.org>.
2. Take the online Gateway Survey. It will take about 20-40 minutes to complete.
3. Wait for email messages about further studies. You may be eligible for some studies and not for others. You will only receive email messages for studies for which you are eligible.
4. If you are eligible for the Healthcare Study and decide to participate, it will take about 40 minutes to complete.
5. After finishing each survey, you can enter a drawing for an **Amazon.com gift certificate**.

If you would like to learn more about the AASPIRE Healthcare Study or the Gateway Project, you can

Go to the AASPIRE Healthcare Study page at <http://aaspire.org/healthcare>.

Send an email to Dora Raymaker at [dora@aaspire.org](mailto:dora@aaspire.org).

Make a telephone call to Dr. Christina Nicolaidis at 1-503-494-9602.
